# Buyer Personas

*Gabriel Moncau - 2023*

# Applications

## Personalize Marketing

Change your language and priorities in marketing campaigns to target specific roles. This will lead to higher response rates and conversions from activities into meetings.

## Optimize Networking

Knowing who relates to what is crucial in networking as you make impressions through connections. Use the personas to better communicate with specific individuals to climb the ladder to those with decision making power that can grant you meetings and opportunities.

## Impress in Meetings

Use their terminology to address their specific pain points. This will ensure you come across as knowledgeable about them, their company, and their industry, turning meetings into wins.
