 **leidos**

2

6.89

BAE SYSTEMS

3

6.56

**NORTHROP
GRUMMAN**

Findings:

- Industry is highly **technical** and **regulated**
 - Many very large/small companies, **few mid-sized**
- Highly **impacted by COVID**
 - Unstable financials, **less projects** and transformation
- Most AUS startups are **far too small** for RGP
- Hard to compare **public and private** companies

leidos

RGP[®]

Leidos is an applied technology company founded in 1969 delivering services and solutions to national security, health and engineering markets in three segments: National Security Solutions, Health and Engineering, and Engineering Business.

Despite their average size rating, they present a strong potential RGP client. They are U.S.-based with deep pockets, have substantial transformation roles, and a strong presence in Australia.

Potential RGP Solutions: Project Management, Business Technology Services, Finance Control, Data Analytics, Procurement, Manufacturing/Production Management

BAE SYSTEMS

RGP®

BAE Systems, founded in 1999, is the largest defense contractor in Europe and the 7th largest worldwide. Their business segments are Electronic Systems, Platforms and Services, Air, Maritime, Cyber and Intelligence, and HQ.

BAE has solid financials, many transformation roles, and a very strong presence in Australia. Unfortunately, they are not U.S.-based and well outside our size target, detracting from their potential.

Potential RGP Solutions: Project Management, Change Management Services, Business Technology Services, Finance Control, Data Analytics, Procurement

NORTHROP GRUMMAN

RGP®

Northrop Grumman is an aerospace and defense company founded in 1939 with segments like Aeronautics Systems, Defense Systems, Mission Systems, and Space Systems. It is one of the largest weapons/military technology manufacturers in the world.

NG's ranking is powered by stellar financial performance, reflecting deep pockets, and its deep U.S ties. Beyond that it very large, has some transformation roles, but only limited presence in Australia.

Potential RGP Solutions: Project Management, Business Technology Services, Operational Accounting, Data Analytics, Procurement, Manufacturing/Production Management

Conclusion

RGP[®]

- Space & Defense is a **promising market** with substantial growth, transformation, and presence in Australia.

There is **high variability** in the industry concentrated at the extremes with many very large/small companies.

Most S&D industry leaders are **U.S.-based**, leading to a common way of working and familiarity from RGP.
